[Click Here For Complete Sales Listings](#)

POWER & POWER CONVERSION

Cosel

AC/DC power supplies from 5W to 5000W, PFC front end modules, medical, compact form factors. DC/DC converters - high power bricks, board mount modules, and noise filters. >> [visit website](#)

Electronic Devices, Inc.

EDI offers an extensive selection of bridges, low and high voltage rectifiers, high voltage fast recovery diodes, and high voltage assemblies that are available in a wide range of voltage and current ratings, recovery times, case configurations, and terminations to match specific applications. >> [visit website](#)

Martek Power

A leader in the design and manufacture of standard, modified standard and custom power supplies and DC/DC converters. With over 40 years of experience supporting OEMs engaged in medical, networking, data storage, transportation, computing and military applications. >> [visit website](#)

Mean Well USA

AC/DC power supplies - All form factors from 5W to 18KW, expansive LED driver line-up, energy star compliant desktop and wall mount adapters, DIN-Rail, medical, DC/DC converters, DC/AC inverters, customs & modifications. >> [visit website](#)

MINMAX POWER INC.

Quality, reliability, fast delivery and cost effective power solutions! DC/DC converters from 1W-50W, high power density, high efficiency AC/DC power modules - board mount and chassis from 4W-60W.

>> [visit website](#)

NetPower Technologies

High performance, cost effective DC/DC solutions. Standard brick footprint DC/DC converters, DOSA compatible point of load converters, customs devices. >> [visit website](#)

Phihong

World leader in energy star compliant AC/DC adapters, interchangeable wall plug adapters, LED drivers, desktop adapters, CLA's, POE, medical, compact PCB power supplies, 1U rack mount, hot pluggable redundant power systems.

>> [visit website](#)

Protek Power North America

Protek specializes in AC/DC power supplies for the medical market. The diverse offering of AC/DC power supplies for patient vicinity medical application include a selection of open frame, enclosed, and desktop package styles.

>> [visit website](#)

PULS

Focused and dedicated to delivering the most technologically advanced DIN-rail power supplies on the market today.

>> [visit website](#)

Varta Microbattery, Inc.

Concentrates its technical development on primary and rechargeable lithium products and nickel metal hydride systems for portable applications. A leader in memory backup batteries, with a whole range of batteries including, li-polymer, NiMH prismatic and oval extra thin, li-coin and others.

>> [visit website](#)

Kingbright

A leading LED manufacturer with a global presence. For over 30 years, Kingbright has delivered the highest quality LED products and technological innovations.

>> [visit website](#)

Mechatronics, Inc.

A leading source of AC and DC axial fans, motorized impellers, blowers, and value-added assemblies.

>> [visit website](#)

SiTIME

Silicon replacement for crystal oscillators using MEMS technology. Manufactured on standard silicon process and programmable to any frequency. Pin compatible with standard oscillator, superior reliability and performance at unbeatable pricing. Short lead time 3-4 weeks.

>> [visit website](#)

POWER & POWER CONVERSION continued

POWER RELATED PRODUCTS

Visual Communication Company

LED lens & mounting systems/hardware, LED cable assemblies; Incredible labor saving components and solutions. Complete custom LED system solutions. >> [visit website](#)

POWER CONVERSION PRODUCTS

Bergquist Company

Heat sink insulators (Sil-Pads), AC power cords.
>> [visit website](#)

Cooling Source

Standard, off-the-shelf BGA heatsinks & custom heat-sink solutions for the most demanding designs. The most comprehensive value-added thermal design solutions available today. Low cost and very fast delivery! >> [visit website](#)

Infinite Power Solutions

Infinite Power Solutions, Inc. (IPS)—a U.S. clean-technology company—is a global leader in manufacturing solid-state, rechargeable, thin-film micro-energy storage devices for embedded applications. Founded in 2001, IPS is privately held with corporate headquarters and volume manufacturing in Littleton, Colo. The company is the only ISO 9001 certified manufacturer of solid-state, thin-film batteries. >> [visit website](#)

iWatt, Inc.

iWatt designs, develops and manufactures power supply control ICs and delivers the highest efficiency, best power density and lowest BOM cost. iWatt is leading the LED lighting revolution with the industry's first digital LED driver IC featuring primary side regulation that eliminates the need for an opto-coupler.
>> [visit website](#)

JST Corporation

Connectors; High density, SMT, wire to wire, wire to board, board to board, IDC & crimp type.
>> [visit website](#)

Linear Technology

Designs, manufactures and markets a broad line of standard high performance integrated circuits. Applications for products include telecommunications, cellular telephones, networking products, notebook and desktop computers, video/multimedia, industrial instrumentation, automotive electronics, factory automation, process control, and military and space systems. Principal product categories include amplifiers, battery management, data converters, high frequency, interface, voltage regulators and voltage references. >> [visit website](#)

Maxwell Technologies, Inc.

A pioneering global leader in developing and manufacturing ultracapacitors. Ultracapacitors are energy storage and power delivery products that enable design engineers to create systems that optimize energy efficiency, performance, reliability and cycle life. >> [visit website](#)

Novacap

A Dover company that grew by supplying difficult to produce Multilayer Ceramic Capacitor (MLC) products to the aerospace, military, medical, telecommunications, computer, and oil exploration markets. >> [visit website](#)

Okaya Electric America

AC noise suppression capacitors, spark quenching R-C networks, transient voltage surge absorbers; EMI/RFI filters, LCD displays, gas plasma displays, VGA panels.
>> [visit website](#)

POWER & POWER CONVERSION continued

POWER CONVERSION PRODUCTS

Precision, Inc.

Custom and standard magnetic components. >> [visit website](#)

Pulse Electronics

Pulse has a long operating history of innovation in magnetics, antennas and connectors, as well as the ability to ramp quickly into high-quality, high volume production. >> [visit website](#)

Renco Electronics Inc.

Designs and manufactures custom and standard transformers, inductors, chokes, and coils.
>> [visit website](#)

Schurter Inc.

A progressive innovator and manufacturer of fuses, circuit breakers, connectors, EMC filters and input systems (switches) for the electronics industry. >> [visit website](#)

Syfer Technology Limited

A premier global source for application specific multilayer ceramic capacitors and EMI suppression filters. Syfer also manufactures a range of EMI/RFI filters including surface mount types as well as threaded and solder-in panel-mounted styles. >> [visit website](#)

ZMDI

ZMDI is a leading supplier of application-specific, integrated circuits with low energy consumption for automotive, industrial, consumer, and medical applications, including high-efficiency LED drivers, digital power management, system controllers, and buck DC/DC converters. >> [visit website](#)

SENSING, MEASUREMENT & CONTROLS

ACR Systems, Inc.

Manufactures a line of world class data loggers that measure and record temperature, relative humidity, electric current, pressure, process signals, pulse frequency, power quality and more. >> [visit website](#)

austriamicrosystems AG

Designer and manufacturer of highly integrated mixed signal IC's. Standard products: telephony products, energy metering chip, angular encoder products, bus and power system monitoring chips.
>> [visit website](#)

SENSING, MEASUREMENT & CONTROLS continued

e2v inc.

Leading the way in the design, development and manufacture of a wide range of reliable gas sensors for OEMs. >> [visit website](#)

Dorsey Metrology

For over 50 years Dorsey Metrology International has been manufacturing and selling precision measuring equipment such as dial indicators, bore gages, large diameter gages and snap gages, just to name a few. >> [visit website](#)

Gentech International Ltd

A leading international provider of a variety of switching, sensing and control solutions. A comprehensive range of standard level, flow, and position sensors, including the new optical sensing solutions. >> [visit website](#)

Heidenhain

Develops and manufactures the world's finest linear encoders, angular encoders, rotary encoders, & gaging probes. The customer focus is manufacturers of machine tools and automated facilities and machines, especially for semiconductor and electronics and industrial manufacturing.

>> [visit website](#)

InvenSense Inc.

MEMS-based motion processing products including single, dual and 3-axis gyroscopes. The InvenSense family of MEMS gyroscopes include all the integrated electronics required for complete application-ready functionality. Factory trimmed scale factors eliminate the need for external active components and end-user calibration.

>> [visit website](#)

Madison Company

Designs and manufactures level switches and sensors, temperature sensors and proximity sensors for OEM installations worldwide. Applications include off-highway vehicles, food equipment, appliances and medical equipment.

>> [visit website](#)

Mahr Federal

Provides a large range of easy to use measuring and metrology tools that deliver reliable data.

>> [visit website](#)

Measurement Ltd.

Measurement Ltd designs and manufactures OEM and customer products. Capabilities span a variety of sectors, including automotive, construction, home products and custom OEM opportunities in force, light, sound, temperature, displacement, RF and USB sensor-based products.

>> [visit website](#)

MEL Mikroelektronik GmbH

High temperature proximity sensors (up to 400 degree c) for 'Hot Spot' applications in automotive and industrial automation. >> [visit website](#)

Micro-Epsilon

Laser sensors in the optoNCDT series operate according to the triangulation principle. Laser sensors from Micro-Epsilon measure displacement, dimension, distance and position. Laser sensors are also suited for measurements against special surfaces such as shiny metals, high speed measurements or large stand off distances round off the range. >> [visit website](#)

MicroRidge Systems, Inc.

Easily connect any combination of digital gages (calipers, micrometers, digital indicators, etc.) and multiple RS-232 devices to your PC. Direct connect (RS-232, USB & Network) and wireless systems available. The configurability of our gage interface products allow them to be used with any statistical process control (SPC) or data acquisition (DAQ) software. With our hardware and software wedges, you can take real-time data directly into Excel. >> [visit website](#)

SENSING, MEASUREMENT & CONTROLS continued

Mitutoyo America

Producer of micrometers since 1937 and now recognized as a world leader in Metrology. Produces high-quality products including calipers, indicators and gages. >> [visit website](#)

NK Technologies

The premier manufacturer of current sensors, ground fault sensors and power monitors for the industrial automation market. >> [visit website](#)

Sensata Technologies, Inc.

One of the world's leading suppliers of sensing, electrical protection and control solutions across a broad array of industries and applications in the automotive, appliance, aircraft, industrial, military, heavy vehicle, heating, ventilation and air conditioning, telecommunications, recreational vehicles, marine, medical, information processing, electronic power supply, power generation, construction, agricultural, and alternative energy markets. >> [visit website](#)

Sierra Instruments

Manufacturers high performance mass flow meters and mass flow controllers for nearly any gas, liquid, or steam application. Customers choose Sierra Instruments when they need an accurate and repeatable flow measurement, short delivery lead times, expert flow advice, and long term support. >> [visit website](#)

Sirit, Inc.

Offers a range of RFID solutions: finished readers and transponders for facility access and tolling applications and embedded reader solutions for RFID integration into OEM products.

>> [visit website](#)

SmartTool Technologies

Specializing in electronic protractors and OEM Inclinometers designed for angle measurement.

>> [visit website](#)

Solartron Metrology

World leaders in linear measurement. Digital gage probes, LVDT's, optical linear encoders, and associated instrumentation. >> [visit website](#)

Sterling ProMeasure Systems, Inc.

GageXpress Pro 2.0 SPC gaging software provides the complete solution for inspecting parts, calibration and viewing resultant data. Applications can be easily configured for both manual, semi-automatic or automatic gaging configurations. >> [visit website](#)

ZMDI

Pink is the new green. ZMDI is an innovative provider of high performance analog and mixed-signal semiconductor solutions. >> [visit website](#)

SENSING, MEASUREMENT & CONTROLS continued

GE SENSING

General Eastern

A leader in the development, design, and manufacture of a full line of humidity, temperature, and pressure sensing instrumentation for pharmaceutical, building automation, metrology, automotive, petrochemical, and industrial applications. General Eastern is part of the GE Sensing division.

>> [visit website](#)

NovaSensor

High-performance microsensors for medical, automotive, Industrial and consumer applications. Silicon, solid state and stainless steel pressure sensors.

>> [visit website](#)

Telaire

World leading low-cost infrared CO₂ gas sensing technology addressing a wide variety of HVAC (commercial & residential), industrial, automotive, appliance, and medical applications.

>> [visit website](#)

Thermometrics

NTC and PTC thermistors and RTD's, chips, beads, discs, rods, probes, standard and custom assemblies. Temperature range from cryogenic to 450 °C. Resettable fuse PTC applications.

>> [visit website](#)

SENSING, MEASUREMENT & CONTROLS continued

MEASUREMENT SPECIALTIES

IC Sensors

Utilizes state-of-the-art silicon micromachining technology to manufacture OEM components for physical measurement and control. These products include pressure sensors, accelerometers, and custom silicon microstructures. Customization of our pressure sensors is offered for high-volume applications.

[>> visit website](#)

Humirel

Provides systems and solutions to customer needs for humidity and air quality measurement in a wide variety of mass production oriented markets including, automotive, home appliance, reprography, and consumer solutions. [>> visit website](#)

Piezo Film

Piezo Film produces voltage in proportional to compressive or tensile mechanical stress or strain, making it an ideal dynamic strain gage. It makes a highly reliable, low-cost vibration sensor, accelerometer or dynamic switch element. [>> visit website](#)

Schaevitz

The world's largest manufacturer of industrial linear displacement sensors and rotary displacement sensors. The combination of materials and manufacturing techniques used for our linear variable differential transformer sensors (AC LVDTs and DC LVDTs), rotary variable differential transformer sensors (AC RVDTs and DC RVDTs), inclinometers, clinometers, tilt sensors and liquid level transducers results in extremely rugged transducers. [>> visit website](#)

uFused

Pressure sensors, transducers, and transmitters. Designs and manufactures sensors for original equipment manufacturers (OEMs) as well as end users. A large variety of sensor products to meet application requirements in many industries including automotive, off-road, medical, industrial, consumer, military/aerospace, test/measurement and traffic applications.

Vibration

Uniaxial accelerometers and triaxial accelerometers are used every day in high accuracy applications to measure vibration, shock, velocity, displacement, tilt and inclination. Utilizing DC-response silicon MEMS (MicroElectroMechanicalSystems) and piezoelectric film/ceramic technologies.

RF / MICROWAVE & WIRELESS

Aethercomm

A supplier of high power linear and pulsed RF amplifiers, microwave and millimeter wave amplifiers for military, satellite communications and commercial wireless customers both domestic and international. Design and manufacturing facilities are located in San Marcos, CA in San Diego County. >> [visit website](#)

Carlisle Interconnect Technologies (Tensolite)

One of the world's leading producers of high-performance cable interconnect systems and manufacturer of high end RF/Microwave connectors. Developing and producing high-speed wireless communications, automated test equipment, microwave/RF transmission and more. >> [visit website](#)

CML Microcircuits (USA), Inc.

Mixed Signal ICs; Wireless Modems, Sub Audio Tone Signaling/Detection, Sequential Tone Encoders/Decoders, Voice Processors, Voice Security, CVSD Codecs, Digital Control Amplifiers, Signal Processing ICs and Telephony ICs. >> [visit website](#)

Dielectric Laboratories, Inc.

Ultra High Q porcelain capacitors for wireless applications. >> [visit website](#)

Electronic Devices, Inc.

Reticifiers, bridges, high voltage diodes & assemblies. >> [visit website](#)

GigOptix

A supplier of Hi-Frequency transceivers with MMIC technology, transmitters and receiver modules and power amplifiers. >> [visit website](#)

Linear Technology

Linear Technology's RF products include building blocks for wireless and cable infrastructure, RF power control for handsets, and unique solutions for communications systems. Families include high performance upconverting active mixers, downconverting mixers, quadrature modulators and demodulators, RF power detectors and more. >> [visit website](#)

Mercury United Electronics Inc.

A quartz crystal manufacturer of frequency control products that includes crystals, oscillators, low EMI spread spectrum clock oscillators, (quick-turn) TCXO's, VCTCXO's, VCXO's, OCXO's and monolithic crystal filters offering timely deliveries with quick-turn production and R&D performed in The U.S.A. and factory-direct volume pricing with production at Mercury Taiwan and Mercury China. >> [visit website](#)

Micro-Coax

Semi-rigid cable, hand-formable cable, flexible coax cable, spline dielectric coax cable and RF cable assemblies. >> [visit website](#)

MtronPTI

Products include crystal based frequency controls which are employed in a number of applications within the communications industry including: computers and telephone network switches, high-speed gigabit ethernets, modems, wireless transmitters/receivers, multiplexers, data recovery/regeneration devices, fiber channel networks, repeaters, data receivers, line interface devices, and base station controllers.

>> [visit website](#)

RF / MICROWAVE & WIRELESS continued

Passive Plus

Focused on high power passive components. specializing in (magnetic & non-magnetic) HI-Q capacitors and power resistive product lines serving the telecommunications, medical semiconductor, and military industries. >> [visit website](#)

Pulse Electronics

Pulse's broad range of RF and wireless products give you design flexibility without compromising performance and reliability. Pulse's product families include low pass filters, RF diplexers, directional couplers, RF splitter/combiners, transformers/baluns, RF chip inductors, MoCA diplexers, and chipchoke common mode chokes. >> [visit website](#)

Radiall USA, Inc.

Radiall is a global manufacturer of interconnect products and components including coaxial connectors and cable assemblies, antennas, and fiber optic components. Radiall has over 20 connector series, including SMA, SMB, MCX, QMA, N and many others. Coaxial components include: attenuators, terminations, switches and couplers. >> [visit website](#)

RF Industries

Coaxial Connectors, very low cost, SMA, SMB, BNC, TNC, N, UHF, Mini-UHF, FME, LMR, 7/16 DIN, Adapter Kits, Direct replacement for amphenol connectors. >> [visit website](#)

SiTIME

Silicon replacement for crystal oscillators using MEMS technology. Manufactured on standard silicon process and programmable to any frequency. Pin compatible with standard oscillator, superior reliability and performance at unbeatable pricing. Short lead time 3-4 weeks. >> [visit website](#)

Skyworks Solutions, Inc.

Focused exclusively on wireless semiconductor solutions. Offering front-end modules, RF subsystems and cellular systems to top wireless handset and infrastructure OEMs, ODMs and contract manufacturers. >> [visit website](#)

Sumitomo Electric Device Innovations U.S.A.

Provides microwave and millimeterwave RF devices for cellular, handset, broadcast and satellite communications; lasers and photo detector devices for the newest photonic communications systems such as fibre channel, gigabit ethernet, and OC-192 -10Gbps telecom systems; and ultrahigh speed logic for the highest performing super computers and workstations. >> [visit website](#)

Trans Tech Inc.

Dielectric resonators and coaxial transmission line elements for DRO and VCO applications, ceramic bandpass filters, ferrite and garnet material for circulators/isolators and patch antenna elements for GPS applications. >> [visit website](#)

Vectron International

A leader in design and manufacture of frequency generation and control products using both bulk acoustic wave (BAW) and surface acoustic wave (SAW) based designs from DC to microwave frequencies. Products include crystals and crystal oscillators; frequency translators; clock and data recovery products and SAW filters and components used in telecommunications, data communications, timing, navigation, military and instrumentation systems. >> [visit website](#)
