## Cooper Bussmann Announces Launch of KR Series 5.5V Coin Cell Supercapacitors

**ST. LOUIS, April 11, 2007** – Cooper Bussmann PowerStor<sup>®</sup> has extended their leading supercapacitor product portfolio to include 5.5V coin cell packages, to address the continued growth in real time clock (RTC) and memory back-up power applications.

The new PowerStor<sup>®</sup> KR series coin cell offers high capacitance in industry standard horizontal, vertical and cylindrical package styles. Parts are available in six capacitance values from 0.1F to 1.5F with a working voltage of 5.5 volts and a surge voltage capability of 6.3 volts. All values have a -25 to +70°C operating temperature range and are supplied in a bulk pack quantity of 500 pieces.

The KR series is designed for use in products such as DVD players, set top boxes, digital radio, photocopiers, computers & peripherals and HVAC controls. Cooper Bussmann PowerStor<sup>®</sup> also offers standard and custom supercapacitors up to 100F as singles and in packs that can be configured to suit a wide variety of applications ranging from toys to Automated Meter Readers and Hybrid Vehicles.
