

Precision Measuring Tools from CDI

A Division of CDI

Precision Measurement Capabilities at CDI

Digital Probes, LVDT's, Gage Heads, Linear Encoders and more. CDI offers Precision Measurement solutions from world leading manufacturers like Solartron Metrology, Heidenhain, Schaevitz, Mel, MicroRidge and more. You'll find everything from an Analogue Gauging Probe with +/- 0.25mm of measuring travel, to a 300mm Enclosed Linear Encoder for your Machine Tool positioning applications. We invite you to engage our highly experienced Engineers with your project whether it calls for a simple sensing component to be shipped from our extensive inventory, or a complex turn-key measuring system for sub-micron accuracy jobs.

POSITION SENSING MANUFACTURERS

Digital and Analogue
Gage Probes, LVDTs
and Instrumentation

Precision Gaging and
Metrology Tools

Gage Chek
