
Conflict Mineral Statement

Dear CDI Customer,

Component Distributors is a distributor of Power, Sensing, Measurements, RF, Microwave, Optoelectronics, Electromechanical and Wireless products and services. We are not authorized by our suppliers to complete the EICC templates (Or any other questionnaire pertaining to Conflict Minerals) on their behalf.

However, we do continue to perform our due diligence with our suppliers, in hopes of providing you with the most current information. We can attempt to have our suppliers fill out the EICC template for you depending on the "Declaration of Scope" you choose.

Component Distributors Inc knows that all of our distributors work hard to comply with Conflict Mineral Guidelines legislated by Section 1502 of the U.S. Dodd-Frank Act. CDI does not manufacture, nor do we influence the manufacturing of products delivered by the manufacturers we represent.

Conflict Minerals include:

Gold -Semiconductor manufacturing

Tin (Cassiterite) - Solder

Tungsten (Wolframite) - Electronic Devices like cell phones

Tantalum (Columbite-Tantalite) -Capacitor production

or derivatives of these materials that are sourced from DRC (Democratic Republic of the Congo), Uganda, Rwanda, Burundi or Tanzania.

Thank you,

CDI
