

LI-03 & LI-03/B INTERFACE CONTROL SYSTEMS

The LI-03 and LI-03/B are an addition to the LI range of interface control systems designed specifically for use with our range of level sensors.

Terminal 1 should be connected to earth
 Terminals 4 and 5 should be connected to your level sensor.
 Terminals 2 and 3 should be connected to power.
 Terminals 6 and 7 should be connected to switch the relay when the level sensor switch is closed.

OR

Terminals 7 and 8 should be connected to switch the relay when the level sensor switch is open.

TECHNICAL SPECIFICATION

PART NUMBER	LI-03	LI-03/B
Power Input	110/240VAC 50/60Hz	110/240VAC 50/60Hz
Power Consumption	20W maximum	20W maximum
Relay Output Contacts	1 pole SPDT	1 pole SPDT
Relay Contact Rating	8Amp/250VAC	8Amp/250VAC
Time De Lay	10 seconds typical	10 seconds typical
Construction	P.C.B.	Enclosed
Enclosure Housing		White Moulded ABS
Enclosure Rating		Complies with IP10
Temperature Range	-20°C to +50°C	-20°C to +50°C
Weight	approximately 57.2 grams	approximately 175.3 grams
